

Notice

The following document, sometimes called a *codebook* by epidemiologists, is a digital image of material provided by Argonne National Laboratory as part of the descriptive information pertaining to the collection of files offered in CEDR's Radium Dial Painters data file set. Researchers at Argonne's Center for Human Radiobiology (CHR) developed this codebook during the course of their program. Since this detailed information may be helpful in better understanding the variables contained in the data files, CEDR has prepared this digital form of the codebook to accompany the files. In some cases, these CHR codebooks apply to more than one data file.

Small portions of the following digital image were modified to be consistent with CEDR's treatment of confidential or sensitive information, i.e., to avoid disclosure of names, telephone numbers and addresses of individuals involved in the research. More details about CEDR's requirements for de-identifying data can be found in Guidelines for Data Providers (<http://cedr.lbl.gov/strucdoc/coverpage.html>).

SECTION 4: INFLAMMATION AND FIBROSIS

2nd AND 3rd DIGIT CODES FOR INFLAMMATION APPLY TO CODE NUMBERS 400 - 449

<u>2nd DIGIT CODE NO.</u>	<u>3rd DIGIT CODE NO.</u>
0 - NOS (i.e. none of the adjectives listed below)	0 - NOS (i.e. none of the adjectives listed below)
1 - Acute	1 - Focal
2 - Subacute	2 - Diffuse
3 - Chronic	3 - Serous
4 - Granulomatous	4 - Exudative
	5 - Fibrinous
	6 - Hemorrhagic
	7 - Necrotizing
	8 - Vesicular
	9 - Miscellaneous

Note that most general site-specific inflammations are listed under **M-4000**. A few particular site-specific inflammations, namely appendicitis, bacterial endocarditis, bronchopneumonia and glomerulonephritis, are separated by listing them under the number **M-4001**. Lobar pneumonia and pyelonephritis are listed separately under **M-4002** and ulcer is listed as **M-4003**. This use of the 4th digit numbers 0, 1, 2 and 3 applies to all code numbers from **M-4000** to **M-4600** but does not apply to code numbers **M-4700** to **M-4900**.
